5G: Psychotronic Warfare, Mind Control, Killer Frequencies

"Next generation 5G mobile internet technology marks the beginning of the "fourth industrial revolution"
-Arjun Kharpal

5G (fifth generation) wifi technology is nothing less than psychotronic warfare waged against the masses of people on the planet.

This is a global military assault on the minds and consciousness of the people of Earth with unimaginable levels of microwave radiation. Such intense levels of high frequency electromagnetic microwave wifi radiation is extremely dangerous and damaging to the health and well-being of anyone living and working in such an environment.

5G will provide previously unimaginable download speeds to electronic devices such as tablets, smart phones, laptops and mainframe computers, but it will come at the cost of people's physical, mental and spiritual health. 5G will be built out in the large cities first and foremost, with the placement of literally millions of micro 5G transmitters interspaced roughly 800 to 1000 feet apart anywhere and everywhere, so that connectivity can be concentrated and ubiquitous in any city environment. Rural areas are likely to receive web connectivity via low Earth orbiting satellites such as with Iridium, SpaceX and One Web, supplemented and interspersed with ground based satellite relay stations.

Overall, this 5G network will be tantamount to a massive high tech electromagnetic psychotronic military assault on the hearts and minds of the masses for the purposes of mind control (entrainment/enslavement), as well as for an elimination/extermination eugenics based depopulation agenda. In a nutshell, these are 5G global mind control/killer networks that are being rolled out worldwide.

In addition to mind control and health destroying depopulation objectives, we will also see a 24/7 surveillance police state arise using connectivity to the "internet of things" (iot) build out over the years that will occur simultaneously with the big 5G rollout. 5G will only aid and abet the massive spy and surveillance camera network that has been spun like a spiders web throughout our communities over the past 2 decades. We will all soon be living in a Big Brother/Orwellian/Police State/Panopticon, powered, enabled and run by 5G.

Electromagnetic radiation constitutes the greatest level of pollution, in addition to CO2 and methane emissions, to our global environment today. It is the most prolific and most insidious form of pollution, because it is largely invisible. Microwave wifi radiation, as envisioned through the global 5G network, will destroy human health, that much is certain. On an environmental level, its destructive potential (in addition to global CO2 and methane emissions) is a clear and present danger to human civilization and the biosphere. Artificially enhanced electromagnetic environments are unnatural and detrimental to human physiology which naturally resonates with the Earth's natural background resonant schuman frequency of 7.83 Hz. 5G will artificially and unnaturally amplify the resonate frequency of any surrounding environment billions of times, literally destroying the minds, hearts and souls of anyone interfacing with this new artificially created technotronic/electromagnetic mind control/kill grid.

5G is, in essence, a full scale psychotronic military assault on the health, well-being, psyche and survival of the human species. It is truly the height of madness and insanity to deploy these lethal weapons into our cities and communities. The global military industrial intelligence security complex, which includes the world's telecommunications industries, are pathological/tyrannical murderers and genocidal control freaks of the highest order. There is absolutely NO PLACE on this planet for this level of psychotic/debased/deranged/demonic consciousness to exist and operate any longer here on this Earth.

Behind the scenes, though, it is the fallen angelic heirarchy of angels who fell with Lucifer who are truly in control of the hearts and minds of the men and women who run and operate the companies, corporations and military establishments who are funding and building the global 5G network. The new high level frequencies they are implementing through 5G will synergistically create a high frequency resonance platform/matrix through which high level fallen angelic forces will be able to interface, interact, manipulate and direct the future fallen affairs of mankind. This is precisely why this high frequency global electromagnetic grid is being created. It is all about getting control and possession of the hearts, minds and souls of a large segment of humanity and turn them to the dark side. Let it also be noted that the high frequency/high level fallen angelic heirarchy operate from a hive mind (similiar to how insects live and operate), for this is precisely the type of interconnected, ubiquitous electromagnetic communications grid they are trying to help create here on Earth.

In summation, the global 5G network is EVIL to its very core. It is nothing less than a luciferian control grid used to manipulate and damn the souls of men. Simply put, 5G transmitters are lethal psychotronic mind control electromagnetic military warfare weapons of mass manipulation and destruction. The corporate, military, security and telecommunications establishments and the global elite who fund, direct and operate these enterprises (as well as the high level demonic forces who overshadow them) will have their way in this world for a short time only. For the day comes quickly when the Kingdom of Heaven descends from on High to utterly BURN and CONSUME their evil works and casts every single one of these demonic creatures- both human and angelic- into the INFERNO of HELL on Judgement Day, a most fitting recompense. For on Judgement Day, they will ALL be punished and tormented in everlasting FIRE for the CRIMES and GENOCIDES they have all willfully and maliciously committed.

Selah.
